EDUCATION

American International University-Bangladesh (AIUB)

Dhaka, Bangladesh

Bachelor of Science in Computer Science and Engineering

Expected: 2026

- CGPA: 3.15 / 4.00

PROJECTS

Coffee Shop Management System | *NestJS, Next.js, TypeScript, PostgreSQL, Railway*

[Live](#)

- Built and deployed a full-stack web application with a NestJS REST API backend and Next.js frontend, both live on Railway.
- Implemented JWT-based authentication with role-based access control (admin/customer), menu management, and order processing.
- Documented all API endpoints with Swagger UI and configured a PostgreSQL database with environment-based deployment on Railway.

PixoGram | *Flutter, Supabase, PostgreSQL, Dart*

- Built a photo-only social media mobile application with user authentication, follow/unfollow system, and real-time post feeds.
- Implemented image upload, Supabase row-level security policies, and real-time data sync for a multi-user experience.
- Applied Provider for state management and implemented one-level threaded comments with a frosted glass UI design system.

VITON – Virtual Try-On | *Next.js, TypeScript, PostgreSQL*

[GitHub](#)

- Built a premium fashion e-commerce web application with separate admin panels for Men and Women product sections.
- Implemented banner management, category management, image upload functionality, and user authentication.
- Handled full database setup with PostgreSQL and documented deployment pipeline and admin workflows.

Personal Portfolio Website | *React, Vite, Tailwind CSS, Framer Motion*

[Live](#)

- Designed an editorial-style portfolio with oversized Bebas Neue typography, parallax scrolling, and a cinematic hero layout.
- Implemented scroll-triggered animations and smooth page transitions using Framer Motion.
- Built with React and Vite for fast performance, styled with Tailwind CSS v4, and deployed on Netlify.

CourseHub | *HTML, CSS, JavaScript*

- Developed a university learning portal for browsing courses and tracking YouTube tutorial progress.
- Built an admin panel with full CRUD functionality for managing courses and video content.
- Used localStorage for client-side data persistence with a clean responsive UI across all screen sizes.

TECHNICAL SKILLS

Languages: Python, JavaScript, C++, Dart, PHP, HTML, CSS

Frameworks & Libraries: React, Next.js, NestJS, Flutter, Django, Tailwind CSS

Databases & Backend: Supabase, MySQL, PostgreSQL, MongoDB, Firebase

Tools & Platforms: Git, GitHub, Linux, VS Code, Antigravity, n8n, Arduino IDE, Vite
